

WELCOME TO YOUR 2024 PRESCRIPTION COVERAGE

MultiCare Member,

Changes to the MultiCare Employee Health Plan formulary take effect January 1st, 2024. A description of the new formulary can be found by visiting www.fchn.com/multicare. Click under the Pharmacy section to view the updated documents.

Our formulary has been developed by a team of physicians and pharmacists to ensure coverage of safe, cost-effective drug therapy. We recommend that you review the new formulary carefully with your prescribing provider as you may be taking products affected by changes in coverage.

Key differences between your 2023 and 2024 Ventegra formulary are listed below with some suggested alternatives. Please contact your prescribing provider to discuss transitioning to a covered product if necessary.

No longer Covered (Starting 1/1/2024)	Covered Alternatives
Advair HFA	Fluticasone-salmeterol HFA
Flovent Diskus	Fluticasone propionate HFA, Arnuity Ellipta
Flovent HFA	Fluticasone propionate HFA

Drugs Moving to a Higher Tier/Copay	Covered Alternatives
Alosetron 1mg	Loperamide, ondansetron
Beyaz	Drospirenone-Ethyinyl Estradiol –Levomefolate

*Members enrolled in the high deductible health plan (HDHP) will not be authorized to utilize manufacturer assistance coupons when paying for their medications. The use of such programs to offset an individual's responsibility prior to meeting the out-of-pocket deductible may disqualify an individual to receive any employer contribution or make their own contribution to a Health Savings Account (HSA). Enrollment in the Benefits Preservation Program or the individual use of such patient support programs is not available for high deductible health plan enrollees. It is advisable for members to consider evaluating alternative plan options to ensure they align with their expected healthcare needs for the year.

WELCOME TO YOUR 2024 PRESCRIPTION COVERAGE
