BENEFIT NOTES

A = Age Edit

G = Gender Edit

PA = Prior Authorization

QL = Quantity Limit

ST = Step Therapy

* = Subject to meeting out-of-pocket deductible

Coverage for some drugs may be limited to specific dosage forms and/or strengths. Clinical edits such as quantity limits, age, and gender restrictions may apply to some medications. Since changes to the formulary may occur throughout the year, medications listed on this formulary are subject to change. The listing of a medication on this formulary does not guarantee coverage. The excluded medications are not part of the member benefit. If you fill an excluded medication, you will pay the full retail price.

Members enrolled in the HDHP are subject to meeting the out-of-pocket deductible prior to receiving drugs identified with an asterisk (*) below.

Please note: Under section 223(c)(2) of the Internal Revenue Code (IRC), HDHP members may not receive benefits outside the expanded preventive coverage until the deductible is satisfied. Neither MultiCare or Ventegra can guarantee this list includes all medications subject to IRC guidance.

You may contact a Customer Care representative to obtain current formulary status of a particular medication. Please review your benefit plan documents for additional information regarding your pharmacy benefits and restrictions.
